Ishida IP-Ai-P

Large Roll Label Printer with Color Touchscreen

Convenient label loading

The IP-Ai-P prints at a speed of 4.7 inches per second and, with its unique batching capabilities, is ideal for high-volume printing applications in bakeries. Its custom graphics feature creates stunning labels with all required nutritional and ingredient information, and a fully customizable color touchscreen provides easy access to PLUs via category keys.

The IP-Ai-P features easy label roll front-loading with a nine-inch roll capacity to streamline prepackaging operations. For consistent and accurate pricing, the IP-Ai-P networks with ScaleLink Pro 5 and other third-party product management software.

Standard Features

- Large color touchscreen with adjustable viewing angle
- Front-loading, 9 in (230 mm) label roll capacity
- Prints all legally required ingredient and nutritional information
- Stores and prints graphics for custom labels
- Ethernet communications
- Assign images to category, presets or function keys
- 21 tactile keys
- 585 MB of memory
- Linux operating system
- ScaleLink Pro 5 communications
- Compatible with third-party communication software including Invatron's PLUM® and ADC's InterScale®

Options/Accessories

- Internal wireless communication, 802.11 b/g
- SLP-5 scale management software, including label design, data backup and remote diagnostics
