# **Uni-9 Series**

# **Operation Manual**

# NOTICES

### **IMPORTANT NOTICE**

Those who handle the machine must be aware of the hazards involved. These dangers may not be obvious, so it is imperative to follow the instructions detailed in this manual when installing, operating, inspecting, or servicing the machine. Therefore, we recommend that you thoroughly read and understand this manual before installing, operating, inspecting, or servicing the machine.

ISHIDA is not liable for any damage, loss or injury that results from incorrect operation, insufficient caution, unauthorized modifications to the machine, or failure to follow the instructions contained in this manual.

## LIMITATIONS OF LIABILITY

ISHIDA assumes no responsibility for special, indirect, or consequential damages, loss of profits or commercial loss in any way connected with the machine, whether such claim is based on contract, warranty, negligence, or strict liability.

ISHIDA assumes no responsibility for the user's programming of this machine, or any consequence thereof. In no event shall ISHIDA be responsible for warranty, repair, or other claims regarding the machine unless ISHIDA's analysis confirms that the machines were properly handled, stored, installed, and maintained and not subject to contamination, abuse, misuse, or inappropriate modification or repair.

## CHANGE IN SPECIFICATIONS

Machine specifications and accessories may be changed at any time due to improvements or other reasons. Consult with your ISHIDA representative at any time to confirm the actual specifications of the purchased machine.

## ERRORS AND OMISSIONS

The information in this manual has been carefully checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors, or omissions.

## **PRECAUTIONS FOR SAFE USE**

It is strongly advised that the following safety measures must be observed to ensure the safe operation of the machine.

0

## WARNING

• Prepare a dedicated power source and always use a power supply with rated voltage. Never connect the machine power input with an AC power supply exceeding the rated voltage. To avoid any potential electrical shock, ensure that the protective ground wire is connected to the main grounding provision.

A power supply that generates voltage variation may cause a malfunction, or using the machine outside of the rated voltage may result in machine failure or danger such as electric shock.

• Do not install the machine near a TV set or radio.

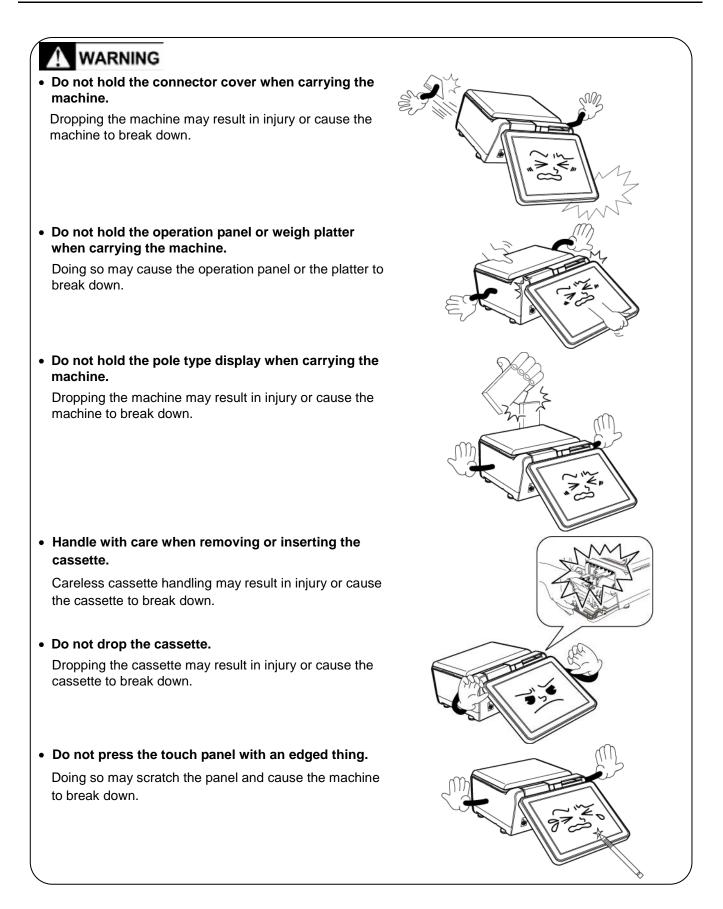

Doing so may cause static to the TV set and/or radio as this machine emits week electric wave.

• Do not allow water or any liquids to come into contact with the machine.

Doing so may result in fire or cause the machine to break down.

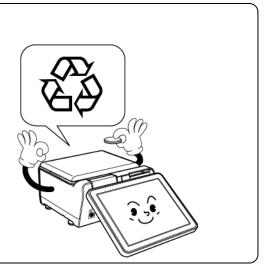

- Do not drop or apply a strong shock to the machine. Doing so may cause the machine to break down.
- Do not disassemble, modify, or attempt to repair the machine.

Doing so may damage the original safety functions.

# 

• Risk of explosion if battery is replaced by an incorrect type. Make sure to dispose of used batteries according to the instructions.

# PRECAUTIONS FOR MACHINE INSTALLATION

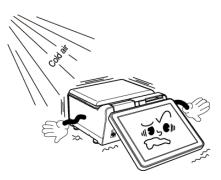

## 

Do not install the machine in the following types of places:

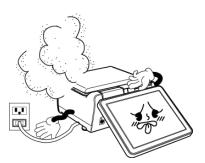

- Places subject to high temperatures or high humidity
- Places exposed to direct sunlight
- Places where water or other liquids are easily spilled on the machine

- Places subject to excessive vibration or unstable foundations
- Places exposed to direct cold air from air conditioners or refrigerators
- Places where the floor or foundation is unstable

- Places subject to a lot of dust or dirt
- Places with large voltage fluctuations

# **PRECAUTION SYMBOLS**

This machine is manufactured for use according to proper procedures by a qualified person and only for the purposes described in this manual. The following conventions are used to indicate and classify precautions depending on the level of danger, or seriousness of potential injury. Always heed the information provided in this manual. Failure to heed precautions can result in personal injury or property damage.

The following precaution symbols are used in this manual.

Indicates a potentially hazardous situation which, if not avoided, may result in serious injury or death. Additionally, there may be significant property damage.
Indicates a potentially hazardous situation where, if not avoided, may result in minor or moderate injury or in property damage.

INFOR	Indicates reference information for operation.
REFER	Indicates the referred page for operation.

# **BEFORE USE**

## 1.1 specifications

UNIT	ITEM	DESCRIPTIONS			
Weighing unit	Weighing capacity	6 kg specification: 0 to 3 kg / 1 g, 3 to 6 kg / 2 g			
	Weighting accuracy	1/3000			
Operation panel unit	Display method	8.4 inch color TFT liquid crystal display with LED backlight, Screen resolution SCGA (800 X 600 dots)			
Customer display unit	Display method	(1) 7 inch color TFT liquid crystal display with LED backlight, Screen resolution SCGA (800 X 600 dots)			
		(2) 12.1 inch color TFT liquid crystal display with LED backlight, Screen resolution SCGA (800 X 600 dots)			
Printer unit	Printing method	Direct thermal method			
	Thermal head	3 inches (960 dots) and 12 dots/mm			
	Printing speed	120 mm/second			
		<i>Note:</i> The printing speed may vary depending on the label conditions.			
	Printing effective size	ffective size 80 mm in width			
	Label roll size Label width: 30 to 80 mm				
		Label length: 20 to 100 mm			
Cassette unit	Label replacement	Front loading cassette			
	No. of cassettes	Up to 7 cassettes can be used.			
	Label roll size	Roll outside diameter: $\varphi$ 100 mm max.			
		Paper core inside diameter: $\phi$ 40 mm ±1 mm			
Others	Power supply	100 to 240 VAC, 50/60Hz			
	Use conditions	Temperature: 0 to 40°C			
		Humidity: 20 to 85%, non-condensing.			
	Input / Output	LAN: 1 channel			
		USB: 4 channels			
		SD: 1 channel			
		Cash drawer: 1 channel			

#### **1.2 PART NAMES**

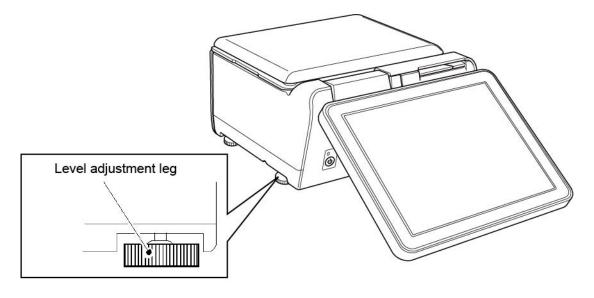

## **Bench Type**

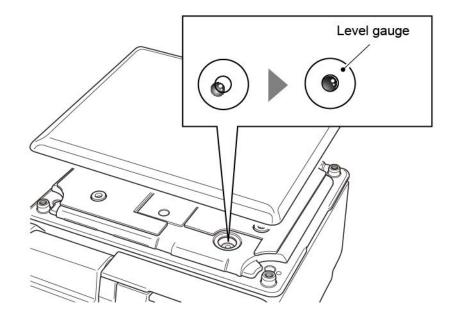

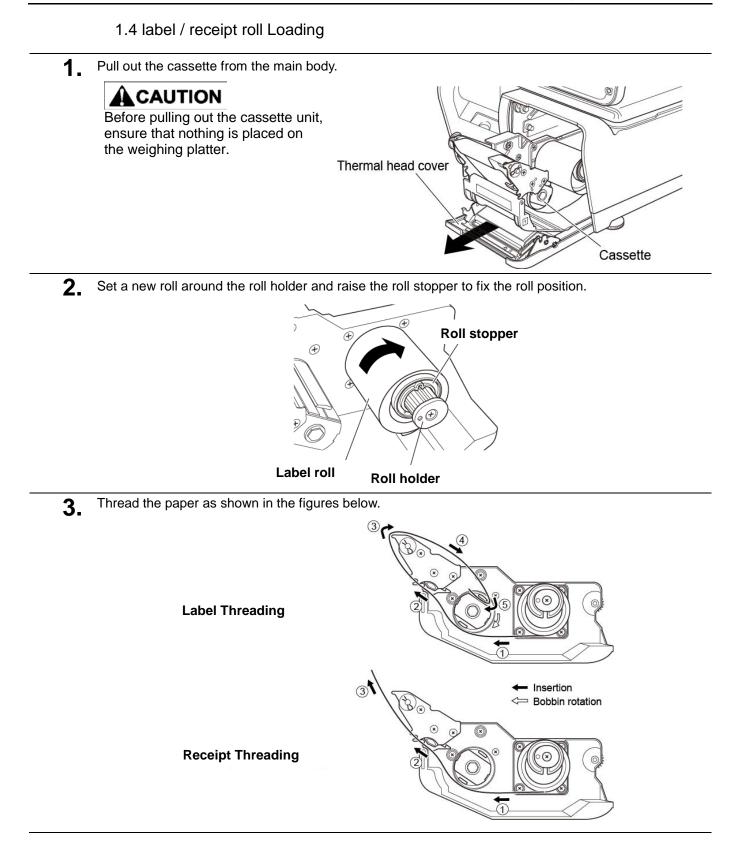

#### 1.3 Level Adjustment

## **ACAUTION** Install the machine horizontally to use.

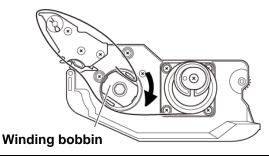

Be sure to turn off the power switch before placing the machine on a stable platform, and adjust the machine inclination by turning the four level adjustment legs so that the bubble is located at the center of the level gauge. Accurate measurements cannot be performed if it is not installed horizontally.

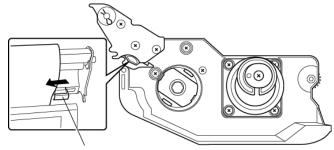

**4.** For labels, fix the paper end with the backing paper stopper, and gently turn the winding bobbin clockwise until the label becomes tight.

5. Slide the label/receipt guide to help smooth paper feeding according to the paper width.

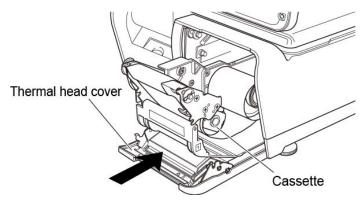

Label / Receipt guide

6. Push the cassette straight into the main body to return to its original position.

## 

- Before inserting the cassette unit into the main body, ensure that nothing sticks to the magnet on the bottom of the cassette unit.
- Push the cassette slowly into the main body so as not to get your fingers caught.

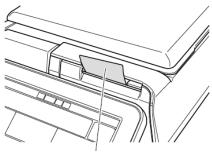

## 7. Press the [FEED] key to issue a label.

At this time, confirm that the label is completely peeled off.

Confirm that the backing paper is wound up smoothly. If the backing paper is wound up diagonally, check that the label is set correctly.

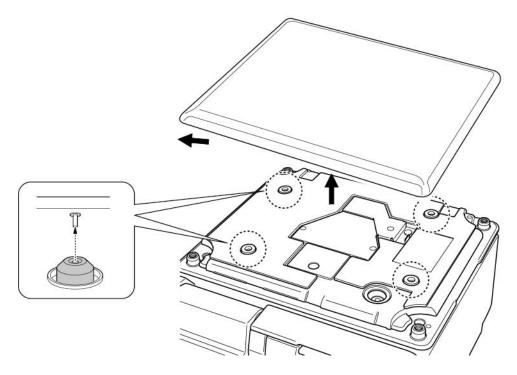

Label

1.5 removing & replacing of weighing platter

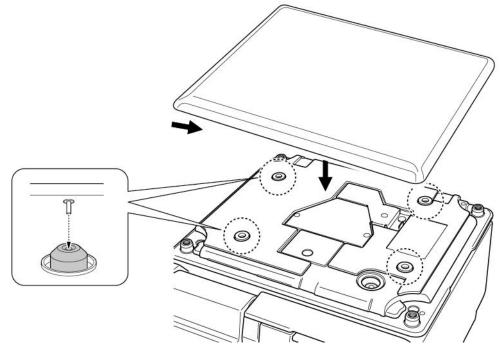

#### 1.5.1 REMOVING THE WEIGHING PLATTER

When removing the weighing platter from the main body, lift the front side to pull out the two pins from the two rubber platter holders and remove the platter by pulling it to disengage the two hooks at the rear side of the platter.

#### 1.5.2 REPLACING THE WEIGHING PLATTER

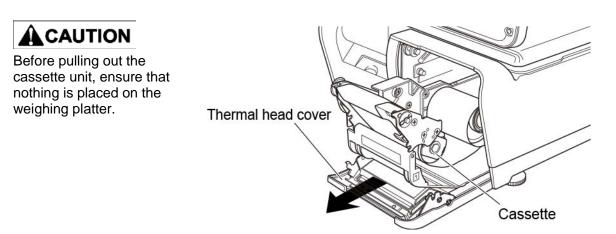

When replacing the weighing platter onto the main body, engage the two hooks at the rear side of the platter and lower the platter so that the two pins on the bottom of the platter are inserted into holes of the rubber platter holders.

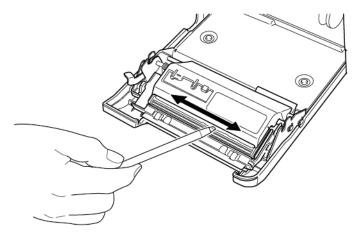

1.6 Cleaning of the machine

#### 1.6.1 CLEANING OF THE THEREMAL HEAD

Pull out the cassette from the main body.

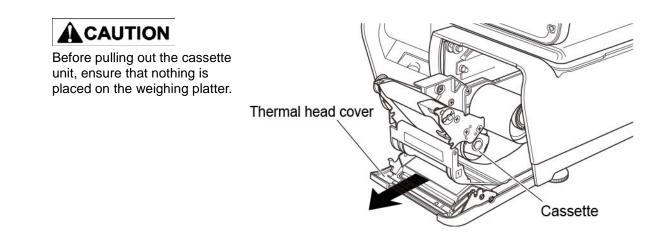

**2.** Use a cotton-tipped swab to clean off the thermal head.

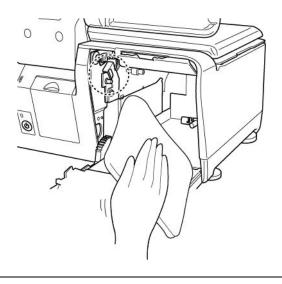

#### 1.6.2 CLEANING OF THE LABEL SENSOR

Pull out the cassette from the main body.

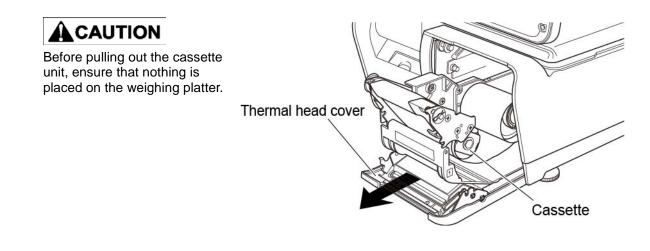

2. Use a dry cloth to clean off the emitter and receiver of the label sensor.

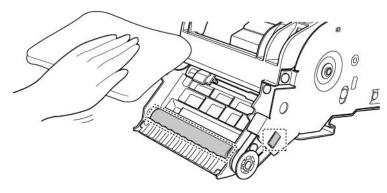

#### 1.6.3 CLEANING OF THE PRINT ROLLER AND PRISM

Pull out the cassette from the main body.

**2.** Use a dry cloth to clean off the print roller and prism.

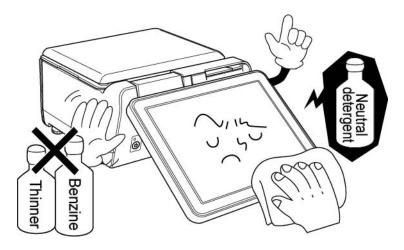

#### 1.6.4 PRECAUTIONS WHEN USING CLEANING FLUIDS

## 

Use a soft cloth and a neutral detergent to clean the machine.

Do not use thinner, benzene, etc. Doing so may damage the original safety functions. For some parts, use cleaning fluid (isopropyl alcohol).

<ul> <li>Do not use cleaning fluid near fire as the fluid is flammable.</li> <li>Do not use cleaning fluid in a poorly ventilated area. Always provide adequiventilation when cleaning.</li> </ul>	ate
--	-----

#### Take the following actions in the event of an accident:

#### If the fluid gets in your eye

- · Immediately wash your eye(s) with water for at least 15 minutes, and consult your doctor.
- · If you wear contact lenses, remove and wash them.

#### If the fluid comes into contact with your skin

- · Immediately rinse the area of contact with water, and then wash with soap.
- · If you notice any skin abnormalities at the area of contact, or if any pain persists, consult your doctor.

#### If the fumes of the fluid are inhaled

- Immediately move the victim to an area where fresh air is available, and have the victim lie down and keep warm.
- · If breathing becomes difficult or stops, provide artificial respiration and seek medical attention immediately.

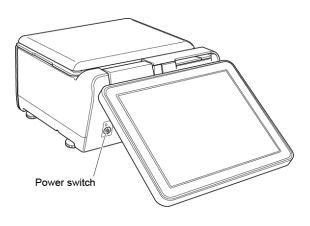

#### If the fluid is swallowed

- · Do not try to induce vomiting.
- $\cdot\,$  Do not give the victim anything to drink, and do not rinse the mouth.
- $\cdot\,$  If vomiting occurs naturally, have the victim lean forward to reduce risk of aspiration.
- $\cdot\,$  Keep the victim warm and seek medical attention.

# 1.7 STARTING PROCEDURES

## 1.7.1 TURNING ON THE POWER

**1.** Push down the Power Switch to turn on the power.

2. The "Clock Check" screen is displayed. Check that displayed date and time agree with the current date and time, and press the [ENTER] button on the screen to proceed to the next step.

**Note:** Refer to the "Date/Time" menu in Adjustment Mode when changing date or time.

	DATE	13-02-2013	
1	пме	16:45:21	
CHECK STEP			
	E CHECK PLEASE	UST:TIME/DATE] MODE SET.	
	BUTTON TO START

## 2.3.3 ISSUING LABELS FOR FIXED PRICE PRODUCTS

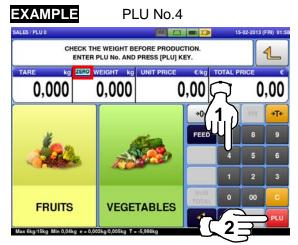

Press the "SALES" icon on the operation menu selection screen.

1.

Enter a PLU number and press the [PLU] key on the keypad.

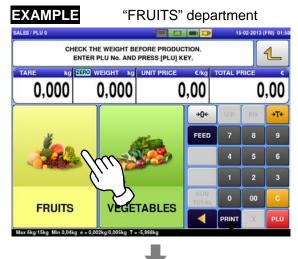

**Note:** If "ZERO" is not indicated on the screen, press  $[\rightarrow 0 \leftarrow]$  on the keypad.

The initial screen is displayed. Note: The contents of the initial screen may differ depending on the settings on your machine.

**OR** Press a preset product department key to display the associated screen.

Press the preset PLU key where the product is assigned.

#### EXAMPLE

"Apple Royal" (non-weighing product)

3.

The designated non-weighing PLU screen is displayed.

4.

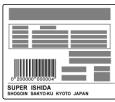

100		AP	ME RO	YAL		TOTAL PF		1

Press the [PRINT] key to issue labels when "MANUAL" is set in the "Print Mode" field.

**Note:** Labels are automatically issued when "AUTO" is set in the "Print Mode" field.

Traceable products

Note: To stop printing, press the [PRINT] key again.

## 2.3.4 ISSUING LABELS FOR FIXED WEIGHT/UNIT PRICE PRODUCTS

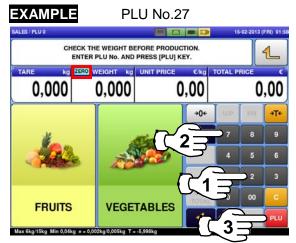

Press the "SALES" icon on the operation menu selection screen.

1

**2** Enter a PLU number and press the [PLU] key on the keypad.

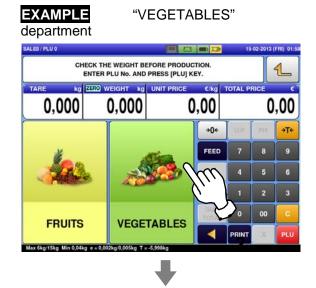

**Note:** If "ZERO" is not indicated on the screen, press  $[\rightarrow 0 \leftarrow]$  on the keypad.

The initial screen is displayed. Note: The contents of the initial screen may differ depending on the settings on your machine.

**OR** Press a preset product department key to display the associated screen.

Press the preset PLU key where the product is assigned.

#### EXAMPLE

"BROCCOLI" (non-weighing product)

The designated non-weighing PLU screen is displayed.

Enter the fixed weight and press the "FIXED WEIGHT" field.

**EXAMPLE** Fixed weight "159 g"

4.

Non-traceable products

Traceable products

Note: To stop printing, press the [PRINT] key again.

5.

## 2.3.5 ISSUING LABELS REQUIRING OPERATOR REGISTRATION

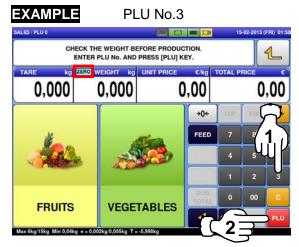

Press the "SALES" icon on the operation menu selection screen.

1.

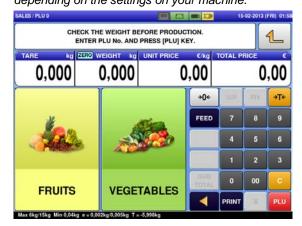

**2.** Enter a PLU number and press the [PLU] key on the keypad.

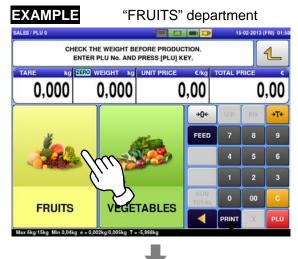

**Note:** If "ZERO" is not indicated on the screen, press  $[\rightarrow 0 \leftarrow]$  on the keypad.

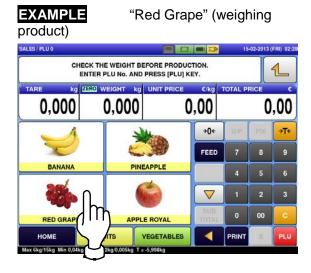

The initial screen is displayed. Note: The contents of the initial screen may differ depending on the settings on your machine.

**OR** Press a preset product department key to display the associated screen.

Press the preset PLU key where the product is assigned.

The designated PLU screen is displayed.

## 3. EXAMPLE

A product to which its unit price and tare weight were set beforehand.

Put the product on the weighing platter.

4.

PRODUCT

The product is weighed and its total price is calculated.
