Press Release

New Datalogic Wireless PowerScan operates up to 10 continuous hours

Rice Lake, Wis., September 15, 2008: The new Datalogic Wireless PowerScan operates up to 10 hours on a single charge and features a 4-line, 16-character LCD display and good-read indicator for easy readability. Made of strong, lightweight (13.9 ounces) polycarbonate and molded rubber, the PowerScan RF8000 provides support for a multi-point operation with multiple scanners communicating to a single-base unit. The scanner and base selection are IP64 rated. Special orders for 18-36V or 48-72V forklift conversion kits are available.

Rice Lake Weighing Systems is a family-owned, ISO-9001 registered company that designs, manufactures and distributes a complete line of industrial process control weighing equipment through a worldwide network of independent distributors. The headquarters, metrology laboratory and main manufacturing plant are located in Rice Lake, Wis., with additional manufacturing facilities located in Jasper, Ala., and Newtown, Conn.
