Rice Lake Unveils Sartorius® CPA Series Balances

Rice Lake, Wis., September 15, 2008: Rice Lake Weighing Systems®, manufacturer and distributor of weight-based measurement products and supplies, has partnered with Sartorius Mechatronics, an international leader in laboratory and processing technology for the pharmaceutical, biomedical and food and beverage industry, to distribute the Sartorius CPA Series Micro and Analytical Balances.

The 29 Sartorius CPA Series Balance models have built-in internal calibration weights for automatic calibration at present time or temperature intervals. The balances come standard with bi-directional RS-232C interface, high-contrast and blue backlit displays. High-capacity, top-loading microbalances to 34 kg are now available.

Rice Lake Weighing Systems is a family-owned, ISO-9001 registered company that designs, manufactures and distributes a complete line of industrial process control weighing equipment through a worldwide network of independent distributors. The headquarters, metrology laboratory and main manufacturing plant are located in Rice Lake, Wis., with additional manufacturing facilities located in Jasper, Ala., and Newtown, Conn.
