DIGI[®] DC-782 Counting Scale Makes for Economical and Accurate Parts Counting

Rice Lake, WI --May 4, 2009: Counting scales have become an essential tool for accurately counting large quantities of small parts. The DIGI[®] DC-782 Counting Scale from Rice Lake Weighing Systems is a low cost solution for many parts counting needs. While withstanding frequent movement, the DIGI[®] DC-782 also maintains the incredible resolution and accuracy needed for dependable parts counting. This counting scale can be programmed to store information for up to 25 separate parts, as well as interface with a PC using its RS-232 output. Use the DIGI[®] DC-782 for up to 300 hours of continuous use on its optional rechargeable battery. For mobile workstations, outdoor applications, warehouses, or rental fleets, be certain your count is correct using the DIGI[®] DC-782. For more information visit www.ricelake.com/dc782.

Rice Lake Weighing Systems is a family-owned, ISO 9001 certified corporation, with headquarters, metrology laboratory and main manufacturing plant in Rice Lake, WI. Additional manufacturing facilities are located in Jasper, AL. and Newtown, CT.
