### **IMPORTANT NOTICE**

Those who handle the machine must be aware of the hazards involved. These dangers may not be obvious, so it is imperative to follow the instructions detailed in this manual when installing, operating, inspecting, or servicing the machine. Therefore, we recommend that you thoroughly read and understand this manual before installing, operating, inspecting, or servicing the machine.

ISHIDA is not liable for any damage, loss or injury that results from incorrect operation, insufficient caution, unauthorized modifications to the machine, or failure to follow the instructions contained in this manual. unauthorized modifications to the machine, or failure to follow the instructions contained in this manual.

### LIMITATIONS OF LIABILITY

ISHIDA assumes no responsibility for special, indirect, or consequential damages, loss of profits or commercial loss in any way connected with the machine, whether such claim is based on contract, warranty, negligence, or strict liability.

ISHIDA assumes no responsibility for the user's programming of this machine, or any consequence thereof. In no event shall ISHIDA be responsible for warranty, repair, or other claims regarding the machine unless ISHIDA's analysis confirms that the machines were properly handled, stored, installed, and maintained and not subject to contamination, abuse, misuse, or inappropriate modification or repair.

### **CHANGE IN SPECIFICATIONS**

Machine specifications and accessories may be changed at any time due to improvements or other reasons. Consult with your ISHIDA representative at any time to confirm the actual specifications of the purchased machine.

#### **ERRORS AND OMISSIONS**

The information in this manual has been carefully checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors, or omissions.

### **SIGNAL WORDS (TYPES & MEANING)**

The signal words shown in this manual are separated into three stages depending on the level of danger or the seriousness of potential injury. Fully understand the meanings of the signal words shown below and follow the directions as shown in this manual and on the stickers placed about the machine.

Signal	Meaning
A DANGER	Indicates an imminently hazardous situation which, if not avoided, is likely to result in serious injury or may result in death. Additionally there may be severe property damage.
WARNING	Indicates a potentially hazardous situation, which, if not avoided, will result in severe injury or death.
	Indicates a potentially hazardous situation, which, if not avoided, may result in minor or moderate injury or in property damage.
NOTE	Indicates information that needs to be noted or emphasized.
	Indicates reference information when performing an operation.

Indicates the reference page related to performance of an operation.

REFEREN

### SAFETY PRECAUTIONS

The following safety precautions must be observed to ensure the safe operation of the machine.

#### WARNING

• Prepare a dedicated power source and always use apower supply with rated voltage. Never connect themachine power input with an AC power supplyexceeding the rated voltage. To avoid any potentialelectrical shock, ensure that the protective groundwire is connected to the main grounding provision.

A power supply that generates voltage variation maycause a malfunction, or using the machine outside of the rated voltage may result in machine failure or dangersuch as electric shock.

• Do not install the machine near a TV set or radio.

Doing so may cause static to the TV set and/or radio asthis machine emits week electric wave.

• Do not allow water or any liquids to come into contact with the machine.

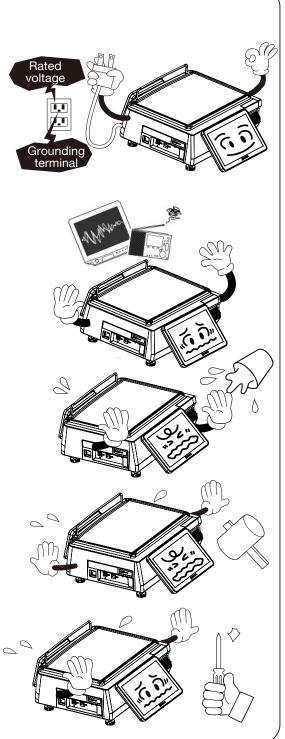

Doing so may result in fire or cause the machine to break down.

• Do not drop or apply a strong shock to the machine.

Doing so may cause the machine to break down.

Do not disassemble, modify, or attempt to repair the machine.

Doing so may damage the original safety functions.

#### MARNING

• Do not hold the connector cover when carrying the machine.

Dropping the machine may result in injury or cause the machine to break down.

• Do not hold the operation panel or weigh platter when carrying the machine.

Doing so may cause the operation panel or the platter to break down.

• Do not hold the pole type display when carrying the machine.

Dropping the machine may result in injury or cause the machine to break down.

• Handle with care when removing or inserting the cassette.

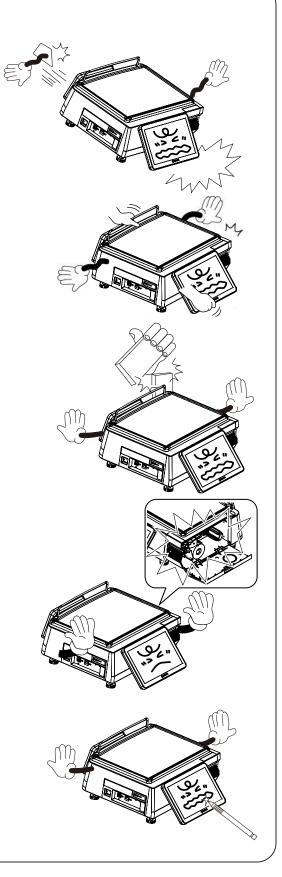

Careless cassette handling may result in injury or cause the cassette to break down.

• Do not drop the cassette.

Dropping the cassette may result in injury or cause the cassette to break down.

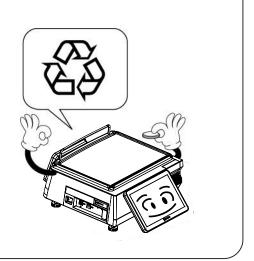

• Do not press the touch panel with an edged thing.

Doing so may scratch the panel and cause the machine to break down.

• Risk of explosion if battery is replaced by an incorrect type. Make sure to dispose of used batteries according to the instructions.

### **PRECAUTIONS FOR MACHINE INSTALLATION**

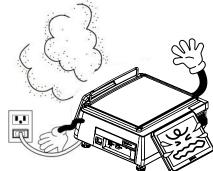

#### **WARNING**

#### • Do not install the machine in the following types of places:

- Places subject to high temperatures or high humidity
- Places exposed to direct sunlight
- Places where water or other liquids are easily spilled on the machine
- Places subject to excessive vibration or unstable foundations
- Places exposed to direct cold air from air conditioners or refrigerators
- Places where the floor or foundation is unstable
- Places subject to a lot of dust or dirt
- Places with large voltage fluctuations

### **1.2 PART NAMES**

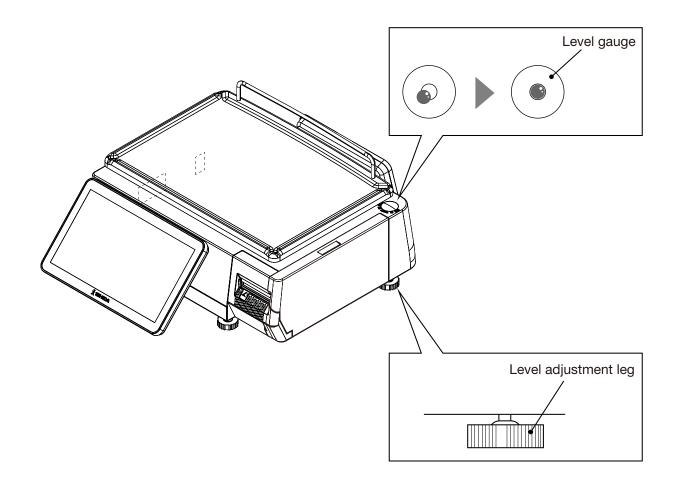

This section describes the names and functions of parts of the machine, and the following part names are used in this manual.

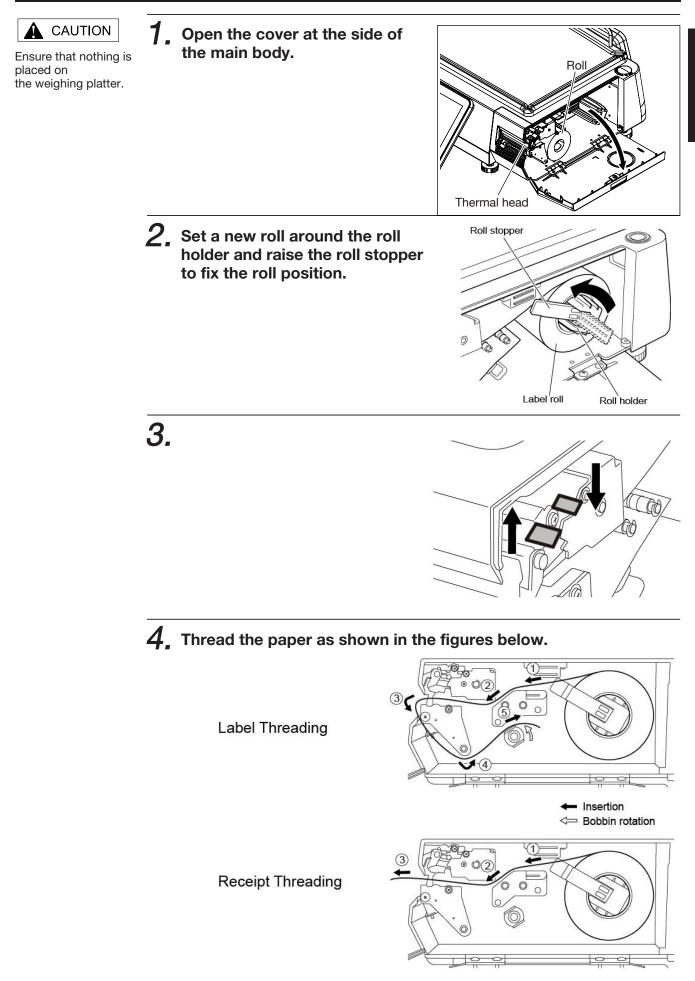

### **1.3 LEVEL ADJUSTMENT**

#### **A** CAUTION Install the machine horizontally to use.

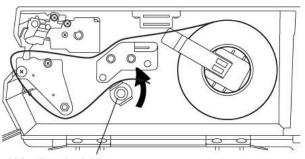

Be sure to turn off the power switch before placing the machine on a stable platform, and adjust the machine inclination by turning the four level adjustment legs so that the bubble is located at the center of the level gauge. Accurate measurements cannot be performed if it is not installed horizontally.

### 1.4 LABEL / RECEIPT ROLL LOADING

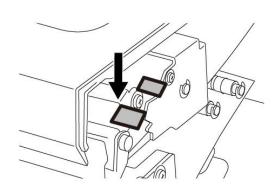

**5.** For labels, fix the paper end with the backing paper stopper, and gently turn the winding bobbin clockwise until the label becomes tight.

Winding bobbin

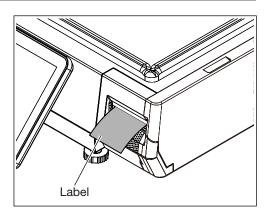

6. Push the lever to lock the thermal head.

Confirm that the backing paper is wound up smoothly. If the backing paper is wound up diagonally, check that the label is set correctly. 7, Press the [FEED] key to issue a label.

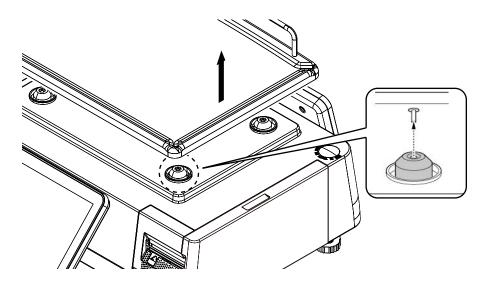

At this time, confirm that the label is completely peeled off.

### 1.5 REMOVING & REPLACING OF WEIGHING PLATTER

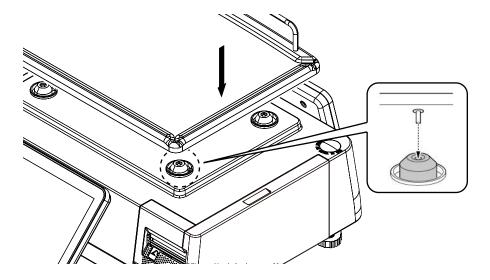

#### **1.5.1 REMOVING THE WEIGHING PLATTER**

When removing the weighing platter from the main body, lift the front side to pull out the two pins from the two rubber platter holders and remove the platter by pulling it to disengage the two hooks at the rear side of the platter.

#### **1.5.2 REPLACING THE WEIGHING PLATTER**

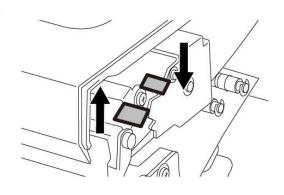

When replacing the weighing platter onto the main body, engage the two hooks at the rear side of the platter and lower the platter so that the two pins on the bottom of the platter are inserted into holes of the rubber platter holders.

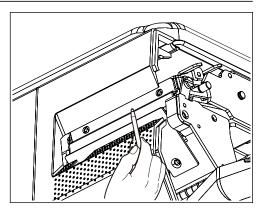

### 1.6 CLEANING OF THE MACHINE

### 1.6.1 CLEANING OF THE THEREMAL HEAD

**1**, Twist the lever as shown in the figures below to unlock the thermal head.

**2.** Use a cotton-tipped swab to clean off the thermal head.

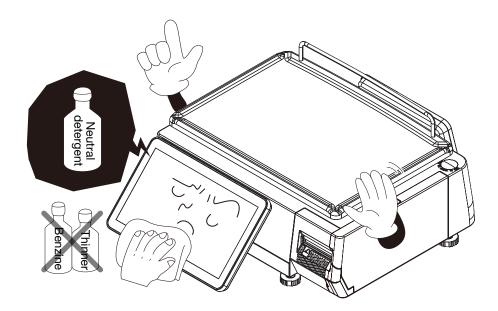

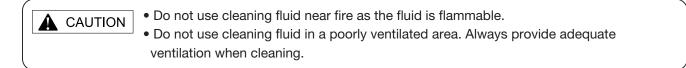

1

#### **1.6.2 PRECAUTIONS WHEN USING CLEANING FLUIDS**

## 

Use a soft cloth and a neutral detergent to clean the machine. Do not use thinner, benzene, etc. Doing so may damage the original safety functions. For some parts, use cleaning fluid (isopropyl alcohol).installed horizontally.

#### Take the following actions in the event of an accident:

#### If the fluid gets in your eye

- · Immediately wash your eye(s) with water for at least 15 minutes, and consult your doctor.
- · If you wear contact lenses, remove and wash them.

#### If the fluid comes into contact with your skin

- · Immediately rinse the area of contact with water, and then wash with soap.
- · If you notice any skin abnormalities at the area of contact, or if any pain persists, consult your doctor.

#### If the fumes of the fluid are inhaled

- Immediately move the victim to an area where fresh air is available, and have the victim lie down and keep warm.
- · If breathing becomes difficult or stops, provide atificial respiration and seek medical attention immediately.

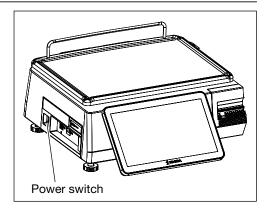

#### If the fluid is swallowed

- · Do not try to induce vomiting.
- · Do not give the victim anything to drink, and do not rinse the mouth.
- $\cdot\,$  If vomiting occurs naturally, have the victim lean forward to reduce risk of aspiration.
- $\cdot\,$  Keep the victim warm and seek medical attention.

### **1.7 STARTING PROCEDURES**

### **1.7.1 TURNING ON THE POWER**

2. The "Clock Check" screen is displayed. Check that displayed date and time agree with the current date and time, and press the [ENTER] button on the screen to proceed to the next step.

> Note: Refer to the "Date/Time" menu in Adjustment Mode when changing date or time.

#### **3** The initial screen is displayed.

Note: The contents of the initial screen may differ depending on the settings on your machine.
