

Dump Payloads Fast with SURVIVOR[®] Truck and Rail Scale Dump-Through Grating

Every SURVIVOR Grain Dump scale is custom-made to fit existing material handling equipment. Able to keep up with any bottom or rear discharge truck body, this system is clean, efficient and durable.

All SURVIVOR Grain Dump scales are Legal for Trade and available in steel or concrete. The biggest names in grain processing have standardized on SURVIVOR.

A real-time-saving benefit is the ability to bring a truck in, unload it using the grain dump, and then refill the truck—all while on the same scale.
