SURVIVOR®

OTR AXLE TRUCK SCALE

STEEL OR CONCRETE DECK

Proven SURVIVOR Strength for Axle Weighing Applications

Rice Lake's reputable SURVIVOR OTR Axle truck scale is designed for in-ground, shallow-pit truck axle weighing for applications where above ground ramps aren't practical. Built tough with a wide-flange I-beam construction, the SURVIVOR OTR Axle scale withstands steady truck traffic and harsh weather conditions with minimized deflection (vertical flexing), which is a major factor increasing the life of the weighbridge.

Space Saving Solution to Ensure On-road Safety

The SURVIVOR OTR Axle scale is built in a shallow pit to keep the scale deck flush with existing truck traffic. The pit design means there is no need to build ramps, allowing minimal disruption to the current traffic flow and a small scale footprint. The SURVIVOR OTR Axle truck scale is ideal for warehouses, distribution centers, e-fulfillment centers, transfer stations and any LTL business that needs to checkweigh trucks leaving the premises for on-road weight compliance and fee deterrence.

Easily Sum Axles with 920i® Software

To streamline the axle weighing process, add Rice Lake's 920i automated truck kiosk with axle weighing software to a SURVIVOR OTR Axle scale. The system effortlessly sums axle weights after each weighment and provides a total readout. Utilizing automated kiosks, remote weight displays and traffic flow equipment increases truck traffic efficiency, driver safety and overall ease of use.

Date	Time	Scale #
-888.8888		Scale #1

STANDARD FEATURES

- Up to 120,000 lb gross weight capacity
- 75,000 lb capacity load cells and mounts
- Compatible with 920i axle weighing software
- Shallow pit design for small scale footprint
- Available in steel or concrete deck
- Non-Legal for Trade checkweighing scale

Complete your scale with the highest quality accessories.

1. HMI Digital Weight Indicators

We offer a complete line of weight indicators, including models that can store up to 1,000 truck ID numbers and truck tares. Weight indicators are available in a range of enclosures for various environmental protection levels.

2. Automated Ticketing Kiosk

Our Automated Ticketing Kiosk (ATK) system is ideal for truck identification and ticketing. ATK systems optimize truck and material flow and increase efficiencies throughout operations.

3. Ticket and Continuous Fanfold Printers

Our high-speed, high-quality printers include performance features such as 180 characters-per-second printing and double-strike power to handle up to five-part multicopy forms.

4. Remote Displays

Featuring a super-bright LED display and a non-glare filtered lens, the SURVIVOR LaserLight® remote display and M-Series messaging remote display are clearly visible—even in direct sunlight. The displays' unique IntelliBright™ feature uses a photo sensor to read ambient light to automatically adjust the displays' intensity between day and night settings to optimize power usage.

5. Traffic Signals

Rice Lake's traffic signal housing meets or exceeds ITE specifications. Kits are Intertek/ETL certified and listed on the ETL certification program. Stainless steel light hardware and a 4.5-inch aluminum pole hold up to harsh weather conditions. Temperature compensated power supplies ensure long LED light life.
