## BenchPro Series

## FedEx Ship Manager<sup>®</sup> Compatibility

The Rice Lake Weighing System's BenchPro Series scale is compatible with FedEx Ship Manager software using the USB connection. Both power and communications are provided by the BenchPro Series scale through the USB HID port.

## BenchPro Scale Set Up During Initial Installation of FedEx Ship Manager

During the installation of the FedEx Ship Manager, a Scale Configuration menu displays.

Scale Configuration	
If using a scale, please select the appropriate option be	low:
○ I am not using a scale.	
I'm using a scale provided by FedEx.	
I'm using my own serial scale.	Configure Scale
FedEx scales will be recognized automatically. Addition required if using another type of scale.	al configuration may be
< <u>B</u> ack <u>N</u> ext >	Cancel

- 1. Select I'm using my own serial scale.
- 2. Click Configure Scale . The Configure Scale menu displays.

Scale Type Toledo PS30/PS60 Test Scale Weight: 0.2 Faibanks Utlegra /Utlegra Jr. USB Settings Outcom Vendor Id 1C19 Product Id 0002		Port	USB

	Product Id	0002		

- 3. Click on the drop-down arrow in the Scale Type field, and select Custom.
- 4. Type 1C19 in the Vendor Id field.
- 5. Type 0002 in the Product Id field.

FedEx Ship Manager is a registered trademark of FedEx Corporate Services, Incorporated, its parent and its parent's subsidiary companies.

## BenchPro Scale Set Up After Initial Installation of FedEx Ship Manager

FedEx Ship Manager allows for set up of a scale within the program.

- 1. Open the FedEx Ship Manager program.
- 2. Select the Utilities tab and select Configure Scale.

3. Follow steps 2 through 6 as in BenchPro Scale Set Up During Initial Installation of FedEx Ship Manager. Once the BenchPro scale has been set up, clicking in the *Weight* field automatically populates the fields.
