

4 Channel Board – FM Approved

Installation Manual

The 4 channel board is used in many Rice Lake Weighing systems products and is FM approved. Use this document when replacing the board in existing product.

WARNING: Some procedures described in this manual require work inside the product. These procedures are to be performed by qualified service personnel only.

Figure 1. 4 Channel Board

Installation

To replace the board in existing product, follow these steps:

1. Open the product and locate the current 4 channel board.
2. Note the wiring configuration of the current board.
3. Remove the wiring from the board.
4. Loosen mounting screws and remove the board from the product.
5. Install the new board and secure with mounting hardware.
6. Reinstall the wiring as noted in Step 2.
7. Close the product.

Refer to the product manual for additional information.
