### HIGHLIGHTS

- Instant dimensions, weight and a picture of freight up to 4 x 4 x 6 feet (1.2 x 1.2 x 1.8 m). For larger freight we offer PalletPro Quad.
- Lightweight and compact, saving thousands on installation costs
- Simple interfacing with scales, barcode readers, networks and nearly all shipping and warehouse management software
- Lower purchase cost, no scheduled maintenance costs, and flexible payment and lease options make PalletPro the most cost-effective freight dimensioner

### OTHER FEATURES

- Dimensions can include or exclude pallet, as required
- Virtually maintenance-free
- Includes a display that can be custom-positioned
- Works with or without a floor scale
- Designed, assembled and supported in the USA

### OPTIONS

#### PALLETPRO CUSTOM

For installations with low ceilings or other challenges, we offer PalletPro Custom. It offers the same functionality and capacities, in a package that's custom-engineered to fit your unique environment. Ask for details.

#### MATRIX ENTERPRISE™ SOFTWARE

Every QubeVu comes complete with all required software. Add Matrix Enterprise, and you'll have total visibility and centralized control of your QubeVu devices and scan data. It works with every QubeVu in your operation, uniting your devices into a seamless, dashboard-driven network. An invaluable productivity tool.

#### PERIPHERALS AND ACCESSORIES

PalletPro supports most peripherals including floor scales, barcode readers, additional IP cameras, and additional displays. Peripherals can be purchased as an option, or in many cases you can use your existing equipment if preferred.

We also offer a comprehensive selection of mounting accessories.
