SURVIVOR® Paramounts® HE

Medium-capacity Weigh Module Systems

Picture is a representation of actual product.

Consisting of three different weigh module designs, the Paramounts system offers superior accuracy, even in applications with extreme expansion, contraction and vibration. The fixed-pin module acts as the vessel's primary reference point, enabling rotation. A single side-stop module is then paired with the fixed-pin module to permit mechanical expansion and contraction in one direction. The vessel then becomes a high-accuracy weighing system with the addition of one to six free-sliding modules. This system offers the free motion necessary to eliminate unwanted mechanical side loads, as well as the strength needed to keep the vessel in check. This gives the Paramounts system its industry-leading reputation for exceptional accuracy in unfriendly environments. Integral jacking/shipping bolts enhance safety by preventing accidental lift-off, facilitating quick field removal of load cells and eliminating load cell damage during transportation. Matched outputs and field-replaceable cable simplify installation and enhance serviceability. The Paramounts system represents the ultimate combination of convenience, accuracy and control.

Complete Kit Includes:

- One JB4SS NEMA Type 4X stainless steel signal trim junction box
- One fixed-pin module, one side-stop module, and one or two free-sliding assemblies. Each module is complete with a FLINTEC SB4 or SB10 (520 lb) stainless steel hermetically sealed load cell.
- 25 ft of hostile environment EL147HE SURVIVOR® load cell cable

Standard Features:

- Capacities (per module): (2.3 kN-100 kN)
- · All stainless steel construction
- Bolt-in-place design; module bolts directly to tank leg without requiring additional load buttons or mounting plates
- Hermetically sealed, stainless steel load cells
- Load cell outputs are matched to ± 0.07%, minimizing maintenance costs
- Unique design allows for thermal expansion/ contraction
- Low-profile, self-checking design
- Jacking screw allows empty vessel to be lifted clear of load cell for maintenance
- Unique patented blind load hole technology minimizes unwanted side and eccentric loading
- Vessel is free to slide laterally on PTFE-coated surfaces
- · Two-year limited warranty

Applications

- Medium-capacity, blenders and tanks
- Batching/blending
- · Pharmaceutical processing
- Food processing
- Petroleum refining and batching

SURVIVOR WEIGH MODULES

Light- to Medium-capacity Weigh Modules

Picture is a representation of actual product.

The RL1700 HE offers precision-machined, weldless construction to maximize washdown cleaning effectiveness. This design, coupled with integral jacking/shipping bolts, eases installation and minimizes maintenance costs. OIML C3 certified load cells in capacities from 5 kg to 5,000 kg provide accurate, consistent weighments. Ideal for multi-ingredient micro-batching applications, the RL1700 HE provides exceptional performance in hostile environments. The RL1700 HE offers a guaranteed waterproof rating to ensure reliable performance in moisture-laden environments.

Complete Kit Includes:

- One JB4SS NEMA Type 4X stainless steel signal-trim junction box
- Three or four RL1700 HE stainless steel compression mounts
- Three or four RL9018SS (5-250 kg) or RLHTO (500-5,000 kg) stainless steel, hermetically sealed single-ended beam load cells
- 25 ft of hostile environment EL147HE SURVIVOR® load cell cable

Standard Features:

- All stainless steel construction
- Hermetically sealed, stainless steel load cells, IP66/68, guaranteed waterproof
- OIML certified load cells from 5 -5,000 kg
- Bolt-in-place design; module bolts directly to tank leg without requiring additional load buttons or mounting plates
- Self-checking with lift-off/tip-over protection and jacking/shipping bolts
- Load cell is isolated from overload in all directions
- Weldless construction retains less residue and allows fast, thorough cleaning
- · Two-year limited warranty

Applications

- Multi-ingredient micro-batching
- · Meat and poultry processing
- Batching/blending
- · Dye/ink blending

SURVIVOR WEIGH MODULES RL1600 HE

Medium-capacity Weigh Modules

Picture is a representation of actual product.

The RL1600 HE mounting module kit utilizes several Rice Lake Weighing Systems components to provide an unmatched level of performance in tank and hopper weighing applications. The RL1600 HE kit is ideally suited for indoor and outdoor process control operations in the medium-capacity ranges. Each module incorporates self-checking capabilities for thermal expansion and contraction.

Fabricated stainless steel module with RL75016WHE double-ended beam load cell.

Complete Kit Includes:

- One JB4SS NEMA Type 4X stainless steel signal trim junction box
- Three or four RL1600 HE stainless steel compression mounts
- Three or four RL75016 WHE stainless steel, hermetically sealed double-ended shear beam load cells
- 25 ft of hostile environment EL147HE SURVIVOR® load cell cable

Standard Features:

- Capacities (per module): 1,000-25,000lb
- · All stainless steel construction
- Self-checking, easy-to-use design allows module to be bolted directly to tank leg without requiring additional mounting plates or load buttons
- Hermetically sealed IP66/69K protected load cells
- Double-ended shear beam design, center loaded

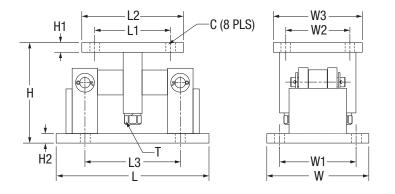

Applications

- Medium-capacity tanks, bins and hoppers
- Bulk material management
- Ingredient batching, mixing and blending

SURVIVOR WEIGH MODULES

RL1855 HE-HS

Medium-capacity Weigh Modules with Hermetically Sealed Load Cells

Picture is a representation of actual product.

The internal height adjustment feature of the SURVIVOR® RL1855 HE weigh module reduces the need for shims or external hardware, simplifying installation. The standard conduit adapter allows for connection to conduit for cable protection. With standard NTEP Certified, 1:5000 division Class III load cells, the RL1855 HE weigh module provides an accurate weighing system when properly installed. Highly versatile, the RL1855 HE weigh module offers worry-free operation in a wide variety of rugged applications.

Complete Kit Includes:

- One JB4SS NEMA Type 4X stainless steel signal trim junction box
- Three or four RL1855 HE stainless steel mounts
- Three or four RL32218S-HE hermetically sealed NTEP Certified load cells
- 25 ft of hostile environment EL147HE SURVIVOR® load cell cable

Standard Features:

- All stainless steel construction
- Hermetically sealed, stainless steel IP69K
- NTEP Certified load cells, 5,000 d Class III multiple load cell
- Self-checking design with lift off/tip off protection
- Two-year limited warranty

Applications

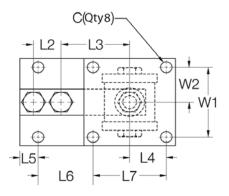

- Medium-capacity hoppers, bins and tanks
- Batching/blending

SURVIVOR WEIGH MODULES RL2100 HE

Heavy-capacity Weigh Modules

Picture is a representation of actual product.

Incorporating an articulating load plate, hardened load pin and double-ended beam load cell into one simple design, the RL2100HE tolerates eccentric loads and side loads of up to 100 percent of capacity. The RL2100 HE comes standard with NTEP Certified, 1:5000 division Class IIIL load cells, yielding up to 0.02 percent total error. An integral conduit adapter offers added washdown protection. These standard features give the RL2100 HE accuracy and dependability in one heavyweight package. The simple load introduction and load cell design provides consistent accuracy in washdown applications, making the RL2100 HE ideal for high-capacity hostile environments.

Complete Kit Includes:

- One JB4SS NEMA Type 4X stainless steel signaltrim junction box
- Three or four RL2100 HE stainless steel compression mounts
- Three or four RL75060S stainless steel, welded seal double-ended beam load cells
- 25 ft of hostile environment EL147HE SURVIVOR® load cell cable

Standard Features:

- · All stainless steel construction
- Welded seal, stainless steel load cells, IP67, guaranteed waterproof
- NTEP Certified load cells, 5,000 d, Class IIIL/10,000 d, Class IIIL multiple cell
- Bolt-in-place design; module bolts directly to tank leg without requiring additional load buttons or mounting plates
- Self-checking design with lift-off/tip-over protection
- · Two-year limited warranty

Applications

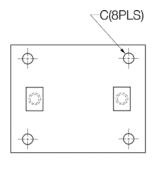

- Heavy-capacity tanks, blenders, reactors and bulk inventory management
- · Petroleum refining process control
- · Blending/batching
