RoughDeck® QC Quick Clean

STAINLESS STEEL FLOOR SCALE

Rice Lake's RoughDeck QC is the weighing solution for efficiency and safety. The exclusive gas-shock design offers easy lifting with a manual support bar that operators can move during extended underdeck cleaning for added safety and convenience.

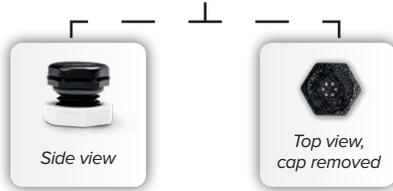

The degree of opening varies based on the scale size, but all allows for optimal cleaning and sanitation. The rugged and sturdy top plate ensures safety and efficiency.

TuffSeal® Junction Box Protects Circuitry

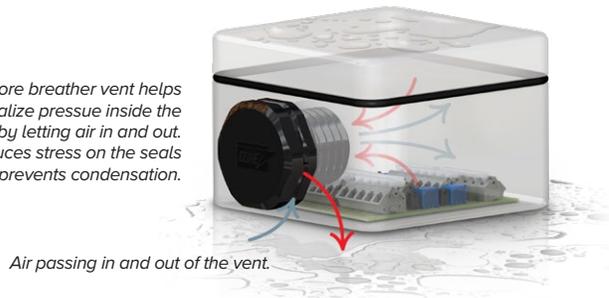

The rugged, stainless steel TuffSeal junction box is specifically designed to protect sensitive circuitry. Its unique enclosure design prevents moisture access, and a Gore® PreVent™ breather vent helps equalize pressure inside the enclosure, which can be impacted by sudden temperature or environmental changes.

Breather vent

The Gore breather vent helps equalize pressure inside the enclosure by letting air in and out. This reduces stress on the seals and prevents condensation.

STANDARD FEATURES

- Rugged washdown design
- Smooth, 304 stainless steel top deck
- Four stainless steel welded seal shear beam load cells
- Rigid 304 stainless steel tube frame
- Remote TuffSeal® stainless steel NEMA 4X junction box
- Four adjustable stainless steel SUREFOOT™ support feet
- 20 ft of SURVIVOR® hostile environment load cell cable to connect an indicator to the junction box
- Safety bar

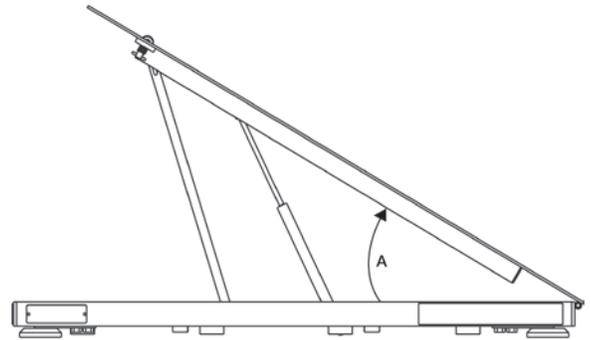

OPTIONS/ACCESSORIES

- Stainless steel deck with treadplate
- Stainless steel floor stand for indicators
- Pit frames
- Access ramps
