# Safe, Compliant Healthcare with Rice Lake

Rice Lake Weighing Systems' Healthweigh® ADA-compliant scales provide safe and inclusive patient-weighing experiences. These scales are designed to serve bariatric patients and those with varying mobility levels by meeting the Americans with Disabilities Act (ADA) standards for public healthcare facilities and assisted living homes.

The ADA regulates medical equipment, such as scales, to ensure there are accessible options for those who need extra assistance, such as bariatric patients or individuals using wheelchairs. In 2024, the U.S. Access Board introduced updates that specifically address medical diagnostic equipment (MDE), setting clear guidelines for accessibility.

As of August 9, 2026, every public healthcare facility must have at least one ADA-compliant scale, or 10% of all medical diagnostic equipment must meet ADA requirements.

The 350-ADA-1 is built to meet ADA standards and provide the best patient experience. Its compact and foldable design makes it easy to store and keeps spaces open for patient comfort. With integrated wheels, it can be moved to different rooms to weigh patients where it's most convenient for them.

The 250-10-2 provides reliable, comfortable patient weighing. The sturdy handrails allow patients to easily walk across the scale and weight results are clearly displayed for medical professionals.

## LIVE HANDRAIL

Sturdy handrail along the scale platform so patients can comfortably stand or move

1

## 40-INCH WEIGHING PLATFORM

Large platform to provide accessibility to wheelchairs and bariatric patients

2

## 2-INCH EDGE PROTECTION

Edge protection to avoid slipping off the scale

3

## 1:8 RAMP SLOPE

Slow incline to easily move across the scale

4

Easy to store, folded depth is 11.75 in (29.8 cm)

250-10-2 ADA-compliant  
Stand-on Scale

Rear wheels  
make transportation  
of the scale easy

**1 LIVE HANDRAILS**

Handrails on either side of the base promote stability

**2 34-INCH HANDRAIL**

Handrails are 34 inches tall to be at a comfortable height for patients

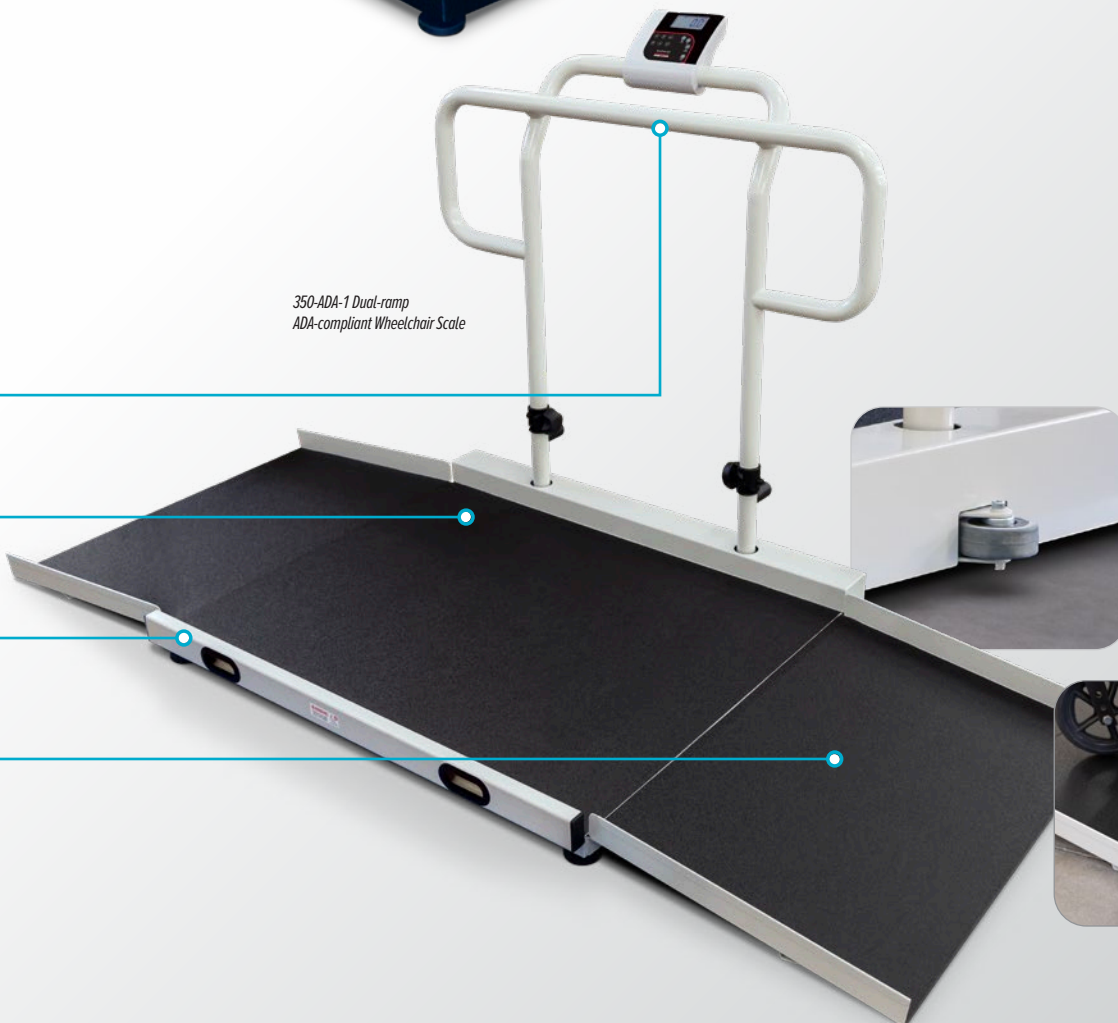

**3 COMFORTABLE DESIGN**

Handrail diameter and shape are designed for comfortable holding during weighments

**4 SLIP-RESISTANT SURFACE**

Platforms are slip-resistant to help patients avoid falls and stay steady on the scale.

350-ADA-1 Dual-ramp  
ADA-compliant Wheelchair Scale

Integrated wheels  
make transportation  
of the scale easy

1:8 Slope

### STANDARD FEATURES

- ADA-Compliant
- Large LCD display
- Antimicrobial keypad
- Supports bariatric patient weighing
- Motiontrap™ movement compensation technology
- Unit of measure toggle or locking
- EMR capable
- Serial and USB data communication ports
- Tare function
- Hold function
- Body mass index (BMI) function
- Factory calibrated

### OPTIONS

- 9 VDC adapter, 120 V/230 V auto switching
- 9 VDC adapter, 230 V
- Epson TM-U220 Tape Printer
- Printer cable, 25-pin D-Sub male to RJ-45, 6 ft

### 250-10-2 ADA-COMPLIANT STAND-ON SCALE

- Handrails for support and safety
- Two wheels for easy transport
- Non-slip platform

### 350-ADA-1 DUAL-RAMP ADA-COMPLIANT WHEELCHAIR SCALE

- Dual ramp
- Metal, non-slip platform
- 2-inch edge protection
- 1:8 gentle slope
- Two wheels for easy transport
- Easy to store, folded depth is 11.75 in (29.8 cm)

### SPECIFICATIONS

<b>CAPACITY:</b>	1,000 x 0.2 lb (450 x 0.1 kg)
<b>250-10-2 PLATFORM DIMENSIONS:</b>	(L) 25.00 in x (W) 25.00 in x (H) 3.00 in
<b>350-ADA-1 PLATFORM DIMENSIONS:</b>	(L) 40.60 in x (W) 32.00 in x (H) 4.50 in
<b>POWER:</b>	9 VDC, provided by six AA alkaline batteries (included) or AC adapter (optional)
<b>BATTERY TYPE:</b>	Six AA alkaline (included)
<b>BATTERY USE:</b>	25 hours of continuous use with batteries Automatic power-off can be configured
<b>DISPLAY:</b>	5-digit LCD display, 0.75 in (1.9 cm) digit height
<b>TEMPERATURE:</b>	Operating: 50 °F to 104 °F (10 °C to 40 °C)

### WARRANTY

- Two-year limited
