

SELLING AND SUPPORTING PRODUCTS INTERNATIONALLY

Resources to Help You Understand Trade Restrictions to Ensure Compliance

As countries and companies place restrictions on the locations they will do business with, it is critical you understand how these restrictions may apply to you, so you can maintain trade compliance.

Understanding Export Compliance

Rice Lake Weighing Systems products cannot be sold to countries under embargo or sanctioned by the United States or the European Union. This means Rice Lake Weighing Systems, Dini Argeo, Helmac, CIBE and all Rice Lake companies will not sell products to anyone in the restricted countries listed to the right and you, our distributors, cannot legally sell, service or support products to anyone in these countries. These restrictions apply to distributors located in and outside of the United States or the European Union, selling any of Rice Lake's global brands.

Questions About Trade Compliance?

If you have any questions regarding exporting our products or providing service for them, please contact our Trade Compliance team.
