

INDUSTRIAL-STRENGTH HOPPER SCALES FOR ANY APPLICATION

The RoughDeck® HS hopper scale is a flexible solution for hopper-based weighing setups. It is completely customizable, including scale material, junction box access location, top plate surface and more.

Read about Rice Lake's custom scales in action with this story about a custom hopper scale for hazelnut drying!

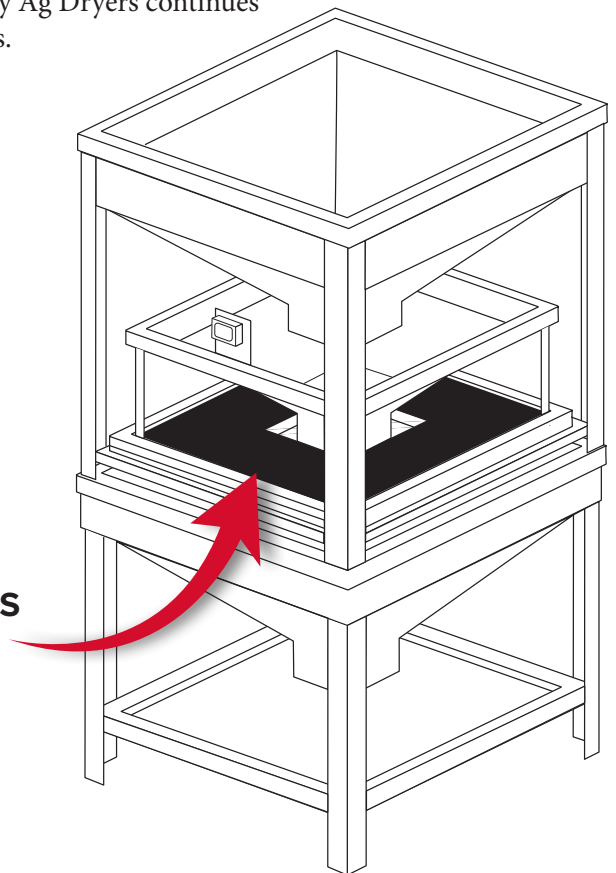

Case Study Overview: Drying a Mountain of Hazelnuts

Mid Valley Ag Dryers in Brooks, Oregon processes 10 to 12 million hazelnuts yearly for farmers. The family-owned business is dedicated to drying hazelnuts, which requires compliance with strict processing regulations. Mid Valley Ag Dryers installed a custom RoughDeck HS hopper scale to fit in its vertical hopper system for processing and weighing hazelnuts. With Rice Lake's weighing solutions, Mid Valley Ag Dryers continues processing high volumes of hazelnuts and providing the best for farmers.
