

# RICE LAKE'S BENCH SCALES DO IT ALL

Rice Lake Weighing Systems' BenchMark® bench scales are up to any challenge. BenchMark scales include rubber feet for better traction and removable tops for cleaning. With a variety of customizable options, bench scales can be tailored to almost any application.

## Complete Customization

### Scale Material

- Scales are constructed from mild or 304 stainless steel. Alternative materials can be requested.

### Top Plate Surface

- Bench scales feature diamond safety tread, smooth, ball and roller top plate options.

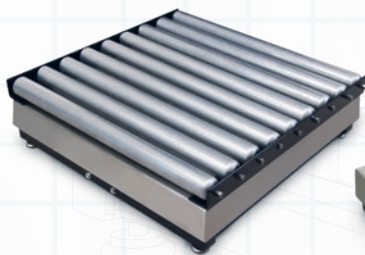

### Load Cell Materials

- Load cells are built with alloy or stainless steel and sealed hermetically or through welding.

## BenchMark® Series
