

# ScaleLink Pro 5 Lite Activation

Thank you for choosing Ishida's ScaleLink Pro 5 Lite scale management software. Follow these steps to obtain your full user license and unlock all the features of your software.

A screenshot of the 'License verification' dialog box. The title bar reads 'License verification' and 'Product Key: XXXXXXX'. The main text area contains instructions: 'In order to enable the installed system, please conduct following steps. 1. Please inform the product key to your supplier. 2. Once you receive license key from your supplier, Enter the license key and then, click [Verify] button. The activation is completed. \*It may take time to issue the license key. Without having License key the system can be used for a certain period. After the period has been passed, it is necessary to enter the License key to run the system.' At the bottom, there are four input fields for the license key, a 'Verify' button, and a 'Verify later' button. A red oval highlights the 'Product Key: XXXXXXX' text, and a blue oval highlights the input fields and buttons.

**1** Using the PC that will be running ScaleLink Pro 5 Lite, open the enclosed software to obtain your unique product key.

**2** Register this product key at the following web address:  
[ricelakeretail.com/softwarelicense](http://ricelakeretail.com/softwarelicense)  
Your authorized license key will be emailed to you within 2 business days.

**3** To continue using the software without your license key, click Verify later. You will have 14 days to enter the provided license key and click Verify. Once the license key is submitted, your software activation is complete.
