# ScaleLink Pro 5

SCALE MANAGEMENT SOFTWARE

## Retail Management Made Simple

In retail facilities, managing in-store computers, web servers and scales can be complex. Simplify operations with Rice Lake's ScaleLink Pro 5 retail scale management software. ScaleLink Pro 5 links online equipment to central hosting computer networks, enabling operators to manage scales from multiple stores in one place.

## Monitor Pricing and Make Changes Instantly

With ScaleLink Pro 5, item data and price changes can be updated from central networks. Store managers can edit prices and set zone pricing to control multiple stores simultaneously. ScaleLink Pro 5 features automatic price distribution to have all scales within stores immediately reflect pricing changes.

## Keep Control Over Operations

ScaleLink Pro 5 is designed with efficiency, security and functionality in mind. Store managers can create password-protected user profiles with varying levels of accessibility to control who can make changes or only view screens.

## Optimize Your Retail Stores

ScaleLink Pro 5 has a vast selection of reporting and management tools. Track operations and export production totals based on hourly, daily and weekly performance to monitor stores over time. With ScaleLink Pro 5, managers can simplify operations with complete control over scales, regardless of location.

### STANDARD FEATURES

- Scheduler provides automated communications
