WEIGHING TRAY

COMPACT SCALES WITH REMOVABLE STAINLESS STEEL TRAY

Stainless steel tray for weighing wet diapers.

Rice Lake's Versa-portion® compact bench scale and TS Series toploader balance are convenient weighing solutions for medical environments. These scales offer precise calculations, so healthcare professionals can measure tiny changes, such as the amount of liquid in a diaper, to monitor a baby's hydration. The added tray creates a convenient place for measuring fluid output in any neonatal or PICU unit.

Both options are made with stainless steel to be washdown-safe and maximize cleanliness. The Versa-portion and TS Series can handle a variety of weighing needs, such as measuring water weight in adult diapers at retirement facilities or weighing small organs from surgeries.

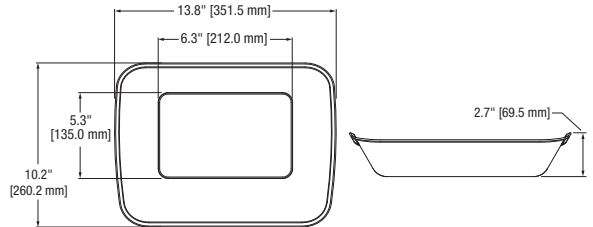

The TS Series is a compact solution with a 190 x 190 mm platter and tuning fork technology to quickly calculate weights. The LCD display allows nurses to keep babies relaxed in dark rooms while clearly viewing accurate weighments. With different measurement modes, the TS Series can be modified to suit different weighing tasks. The Versa-portion offers a slightly larger 237 x 198 mm platter and, with an IP68 rating, it handles splashes or spills. Simply remove the weigh pan to wipe down the exterior for quick cleaning.

Stainless Steel Weighing Tray

STANDARD FEATURES

- Stainless steel
- Easily-to-clean finish

TS Series

Rice Lake Toploader Washdown Balance

STANDARD FEATURES

- Mono-metal tuning fork sensor (MMTS) provides quick response and stability
- Stainless steel, IP65 top housing
- Large, 18 mm LCD with backlight
- Selectable modes
- 13 units of measurement
- Washdown with IP65 rating
- Semi-automatic calibration, external weight
- RS-232 interface for connecting to printer or PC

OPTIONS/ACCESSORIES

- AA battery operation
- Underweigh hook
- Waterproof RS-232 cable

Versa-portion

Compact Bench Scale

STANDARD FEATURES

- Compact and easy to use
- IP68 water and dust resistant
- Stainless steel finish
- Removable weigh pan for quick and easy cleaning
- Backlit LED display
- AC adapter included
- Legal for Trade
- HACCP compliant

OPTIONS/ACCESSORIES

- Rechargeable battery
